

EXCELLENT WEATHERPROOFING SEALANT: WACKER® WN – WEATHERSEAL NEUTRAL

WACKER® WN – WEATHERSEAL NEUTRAL is a one component neutral cure weatherseal silicone sealant ready for use in weatherproofing applications such as perimeter sealing, as well as sealing between glazing and supporting structure like frames, transoms and mullions, metal exterior panel, enamel coated panels, aluminum, wood and bricks.

Applications

- Sealant in aluminum curtain wall joints
- Aluminum panels and enameled joints
- Joints for window perimeter
- Internal/external joints of buildings

Benefits

- 1K neutral curing system: Cures by moisture and is non-corrosive to metals
- Adhesion profile: Exceptional adhesion to alkaline substrates and metals
- Sustainable weatherability enables exterior applications: Its UV and water resistance lends itself especially well for exterior sealing applications.
- High elastic recovery: Important feature especially for joints in contact with flooring
